- You have placed 3 or more orders within 3 months with a minimum turnover of €1000.
 - ◆ *For independent mechanics we are less strict.*

FAQ

What about exclusivity?

We do not work exclusive because we sell unmarked products which cannot be traced to Oxfil.com. This allows you to work under your own brand or business name as you please. Just because you do not get exclusivity doesn't mean you will not get our support. We support our resellers as our ambassadors, their field knowledge and feedback is indispensable for us.

Why does oxfil have such competitive pricing online?

Also Oxfil.com has to compete with the transparency in pricing that the internet has brought us. The times that companies made mystery pricing with absurd dealer discounts is long past. Our resellers are chosen for their service, knowledge and added value. They set their own pricing and we support them with high quality products, extensive portfolio and delivery from stock.

Looking forward to receiving your first order or inquiry!
